Welcome

Vision

- The most influential association in Australian communications, co-operatively initiating programs that promote sustainable industry development, innovation and growth, while generating positive outcomes for customers and society.

Mission

- To create a co-operative stakeholder environment that allows the industry to take the lead on initiatives which grow the Australian communications industry, enhance the connectivity of all Australians and foster the highest standards of business behaviour.

Objectives

The Constitution of Communications Alliance provides that the objectives for which it was created include:

- promoting industry progress and harmony with minimal regulatory or legislative intervention;

- actively promoting and leading a co-operative industry environment for the Australian self-regulatory, competitive, multi-carrier, multi-carriage service provider, multi-network national environment;

- developing technical standards, codes of practice, guidelines and other guidance for the communications industry, including maintaining accreditation as a Standards Development Organisation (SDO);

- providing a forum for the discussion and analysis of issues relating to the activities and interests of members and the industry;

- making representations to Government, regulatory agencies and relevant stakeholders with a view to promoting the common interests of members and the industry; and

- promoting the growth of the Australian communications industry and the protection of consumer interests by fostering the highest standards of business ethics and behaviour through industry self-governance.
